

BH1811R — Beacon Hill Recycled Plastic Contour Chair with Pedestal Base

Contour chair with recycled plastic planks and pedestal style base with surface mount plate

Material

The contour chair is 36.23" tall and has a seat composed of aluminum and steel plates with 1" x 3.5" (1" x 4" nominal dimensions) recycled plastic planks. The chair is designed to support 200 lbs. per linear foot.

The pedestal base is made of 2.38" O.D. steel tubing and features a 6.50" square steel mounting plate with predrilled .38" diameter holes for surface mounting to prevent movement.

Surface mounting is required; mounting hardware is not included.

The planks are made of 95% recycled content by weight and are impervious to moisture and corrosion, do not require the application of sealants or preservatives, and will never need painting or staining throughout the product's life.

Finish

Fade-resistant, powder coated steel and aluminum components feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Color

See website or sales representative for color choices.

Assembly

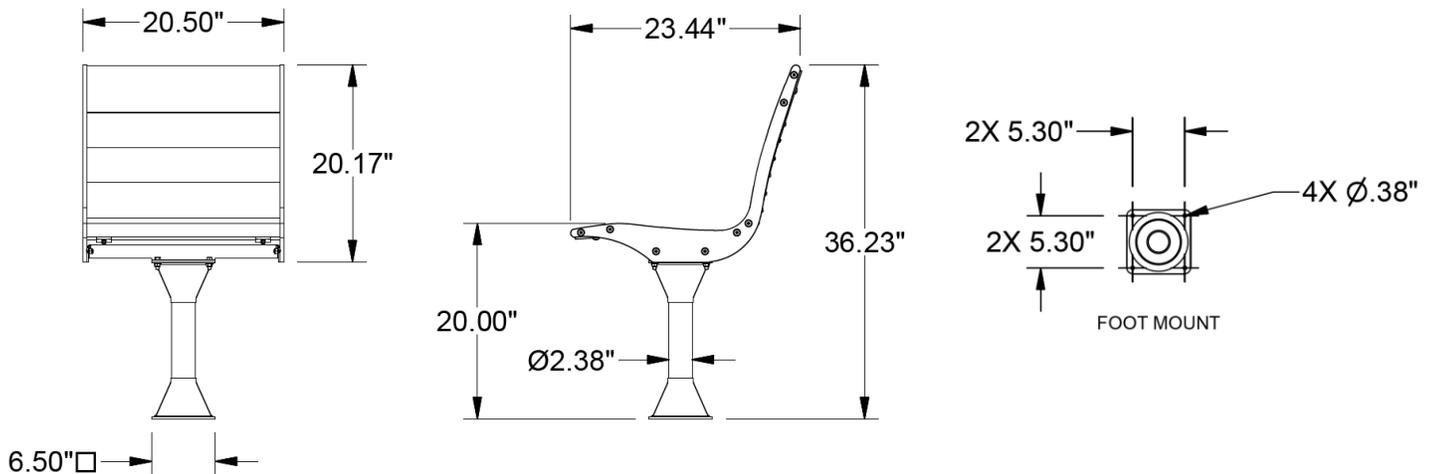

The seat ships pre-assembled and will require assembly to the base. Stainless steel assembly hardware is included.

Maintenance

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum base products.

Warranty

20-year limited structural warranty
