

BH1811T — Beacon Hill Thermory® Contour Chair with Pedestal Base

Contour chair with Thermory planks and pedestal style base with surface mount plate

Material

The contour chair is 36.23" tall and has a seat composed of aluminum and steel plates with 1" x 3.5" (1" x 4" nominal dimensions) Thermory planks. The chair is designed to support 200 lbs. per linear foot.

The pedestal base is made of 2.38" O.D. steel tubing and features a 6.50" square steel mounting plate with pre-drilled .38" diameter holes for surface mounting to prevent movement.

Surface mounting is required; mounting hardware is not included.

Low-maintenance Thermory is made from thermally-modified North American White Ash—a sustainably-harvested and renewable temperate hardwood. It is an environmentally-friendly hardwood and a great alternative to commonly used tropical rainforest hardwoods because of its dimensional stability and Class 1 durability (25+ years). Thermory has a lower carbon footprint than tropical hardwoods.

Finish

Fade-resistant, powder coated steel and aluminum components feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Thermory is a lustrous chocolate brown color when new and will naturally age to uniform silver/gray over time. The color-changing process begins immediately and varies with the amount of UV-exposure.

Color

See website or sales representative for color choices.

Assembly

The seat ships pre-assembled and will require assembly to the base. Stainless steel assembly hardware is included.

Maintenance

Clean with mild soap and water. Let dry thoroughly. To maintain original color, regularly apply standard deck oil, such as Cutek® Extreme Wood Protection Oil.

Warranty

10-year limited structural warranty from the date of purchase.
