

BH1870B — Beacon Hill Bamboo Double Receptacle/Recycler with Open Top

70-gallon receptacle/recycler with bamboo planks, open top, two plastic liners, rubber feet and optional decals (when specified)

Material

The receptacle is 31.51" tall and is composed of nominal 1" x 4" bamboo planks with choice of horizontal or vertical plank placement and an extruded aluminum frame. The receptacle is designed to be used as a large capacity waste container or as a two-stream recycler. Flexible modular design allows for customization; call for information.

Mature exterior grade bamboo is selected from sustainably harvested sources and engineered into planks using low V.O.C. adhesives. Planks feature a Janka hardness rating of 1450 that is superior to teak. Bamboo has 20% more stability in climate and temperature changes than commonly used timber. Bamboo has a Class A fire rating—ASTM E 84 Surface Burning.

The one-piece top is made from 11-gauge steel with two 13.10" wide and 11.32" deep waste openings and lifts off for easy waste disposal. The top features a middle divider designed to support segregated waste disposal.

Optional decals are available: "Bottles/Cans" with recycling logo, "Mixed Recycling" with recycling logo, "Paper" with recycling logo or "Trash" decal—custom decals also available. Specify black or white lettering. Select two sets of decals per container for a total of four: each set will be placed on a front edge and adjacent edge. Decals will be factory installed and must be specified at the time of order.

The receptacle is designed to be portable for flexibility in placement or surface mounted using .5" predrilled holes in the base to prevent movement. The rubber feet are adjustable to assist in leveling the receptacle. Two reusable plastic, 35-gallon capacity liners are made of high-density polyethylene. The mounting hardware is not included.

Finish

Fade-resistant, powder coated steel and aluminum components feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Bamboo planks feature a UV-resistant stain.

Color

See website or sales representative for color choices.

Assembly

The receptacle ships fully assembled and ready for use.

Maintenance

See annual maintenance program.

Warranty

10-year limited structural warranty
