

**BH1870TBT — Beacon Hill Thermory® Dual Receptacle/Recycler with Bonnet Top**

**70-gallon receptacle/recycler with Thermory planks, bonnet top, two plastic liners, rubber feet and optional decals (when specified)**

**Material**

The receptacle is 39.69" tall and is composed of nominal 1" x 4" Thermory planks with choice of horizontal or vertical plank placement and an extruded aluminum frame. The receptacle is designed to be used as a large capacity waste container or as a two-stream recycler. Flexible modular design allows for customization; call for information.

The built-in, tapered bonnet top is 7.20" tall, made from 11-gauge steel and covers two 13.00" wide and 11.13" deep waste openings. The one-piece top lifts off for easy waste disposal.

Optional decals are available: "Bottles/Cans" with recycling logo, "Mixed Recycling" with recycling logo, "Paper" with recycling logo or "Trash" decal—custom decals also available. Specify black or white lettering. Select two sets of decals per container for a total of four: each set will be placed on a front edge and adjacent edge. Decals will be factory installed and must be specified at the time of order.

The receptacle is designed to be portable for flexibility in placement or surface mounted using .50" pre-drilled holes in the base to prevent movement. The rubber feet are adjustable to assist in leveling the receptacle. Two reusable plastic, 35-gallon capacity liners are made of high-density polyethylene. The mounting hardware is not included.

Low-maintenance Thermory is made from thermally-modified North American White Ash—a sustainably-harvested and renewable temperate hardwood. It is an environmentally-friendly hardwood and a great alternative to commonly used tropical rainforest hardwoods because of its dimensional stability and Class 1 durability (25+ years). Thermory has a lower carbon footprint than tropical hardwoods.

**Finish**

Fade-resistant, powder coated steel and aluminum components feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Thermory is a lustrous chocolate brown color when new and will naturally age to uniform silver/gray over time. The color-changing process begins immediately and varies with the amount of UV-exposure.

**Color**

See website or sales representative for color choices.

**Assembly**

The receptacle ships fully assembled and ready for use.

**Maintenance**

Clean with mild soap and water. Let dry thoroughly. To maintain original color, regularly apply standard deck oil, such as Cutek® Extreme Wood Protection Oil.

**Warranty**

10-year limited structural warranty from the date of purchase.
