Galvanized

An after fabrication hot dipped galvanized finish is our standard option. 250 TGIC powder coat colors, thermoplastic coating, PVC dip, and stainless steel finishes are also available as alternate options.

Powder Coat

Our powder coat finish assures a high level of adhesion and durability by following these steps:

1. Sandblast
2. Epoxy primer electrostatically applied
3. Final thick TGIC polyester powder coat

Thermoplastic

In addition to an increased thickness (8-10mils), the thermoplastic finish offers superior impact resistance over powder coating.

Stainless

Stainless Steel: 304 grade stainless steel material finished in either a high polished shine or a satin finish.
