

# F1050 VICTORY FLAT BENCH WITH BACK

6' expanded steel bench with flat seat and back, rolled edge, portable mount

**Accessories**

- 1-Hole Hold Down Kit      **A2375**
- 2-Hole Hold Down Kit      **A2376**

**Material**

The bench is 72.14" long with a flat seat and back. The seat and back are made of 3/4 #9 expanded steel with a diamond pattern and feature a rolled edge. The seat and back are protected by Fusion Advantage™, a plastisol coating with an average .125" thickness and a high-gloss powder coat. The bench seat will support 200 lbs per linear foot.

The legs are made of 2.38" O.D. steel tubing, protected by a fade resistant powder coat finish featuring a state of the art primer proven to prevent rusting. The bench is designed to be portable, allowing for flexibility in placement.

**Finish**

Fusion Advantage is a heat fused plastisol coating that creates an impervious rustproof barrier and resists UV deterioration, mildew, staining and fading.

The finish has been tested to the requirements of ASTM E1354 and is determined to be in compliance with California Uniform Fire Code 1103.2.1.4.2.

A state of the art primer is applied to all of the under supports, providing extreme rust fighting protection and durability. Treated components exceed the industry standard by 34% in testing by independent sources.

**Color**

See website or sales representative for color choices.

**Assembly**

The bench requires some assembly. Stainless steel assembly hardware is included.

**Maintenance**

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum based products.
