

F1366
PICNIC TABLE
 46" diameter expanded steel picnic table, multi pedestal, traditional edge, in ground mount

Material

The table is 46.25" in diameter and features four flat bench seats. The table top and seats are 3/4 #9 expanded steel with a diamond shape and feature a traditional edge. Table top and seats are protected by Fusion Advantage™, a plastisol coating with an average .125" thickness and a high-gloss powder coat. The table top is designed to support 100 lbs per square foot and the seats will support 200 lbs per linear foot.

The table top support is made of 4" square steel tube and seat supports are made of 2.38" O.D. steel pipe. All supports are protected by a fade resistant powder coat finish featuring a state of the art primer proven to prevent rusting. The seat supports are designed to be mounted 20.56" deep and the table top support is designed to be mounted 26.06" deep for a sturdy support.

Finish

Fusion Advantage is a heat fused plastisol coating that creates an impervious rustproof barrier and resists UV deterioration, mildew, staining and fading.

The finish has been tested to the requirements of ASTM E1354 and is determined to be in compliance with California Uniform Fire Code 1103.2.1.4.2.

A state of the art primer is applied to all of the under supports, providing extreme rust fighting protection and durability. Treated components exceed the industry standard by 34% in testing by independent sources.

Color

See website or sales representative for color choices.

Assembly

Table requires some assembly. Stainless steel assembly hardware is included. In ground installation requires site preparation and construction of temporary supports.

Maintenance

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum based products.
