

MPLANTER— Element Planter**Planter with steel panels, flat top and plastic liner****Material**

The planter is composed of 14-gauge steel panels supported by a non-rusting aluminum frame. The steel panels feature a choice of three uniformly spaced architectural perforated patterns. The available patterns are ovals, parquet, or embossed.

The flat top is made of aluminum and lifts off for easy maintenance. Receptacle includes a reusable plastic liner made of black high-density polyethylene.

The receptacle is designed to be portable for flexibility in placement or surface mounted to prevent movement; optional hold down kit is available.

Finish

Fade-resistant, powder coated steel panels feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Color

See website or sales representative for color choices.

Assembly

The receptacle ships fully assembled and ready for use. Using the optional hold down kit may require some assembly.

Maintenance

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a mild detergent and water solution to remove surface dirt. Do not clean with solvent or petroleum base products.

Warranty

20-year limited structural warranty with 7-year finish warranty against fading from the date of purchase.
