

Material

The ash urn is composed of natural stone and epoxy bonded together to create components that are attractive in appearance while maintaining the strength of concrete with less weight. The ash urn features a rain bonnet to keep the elements out of the ashtray and includes a supply of black beauty sand substitute.

The urn is designed to be portable, allowing for flexibility in placement and includes rubber feet to protect flooring materials.

Finish

The aggregate is cast in a durable epoxy resin that remains clear and bright throughout its life.

Color

See website or sales representative for color choices.

The rain bonnet and ashtray are available in bronze colored powdercoat.

Assembly

The receptacle arrives fully assembled for immediate use on site.

Maintenance

Maintenance-free. To clean, spray with a power washer.
