Parking Lot

Improve parking lot and driveway safety with easy to install speed bumps and parking stops.

- 1-year warranty
- Made from 100% recycled rubber with reflective stripes for high visibility in low light
- Speed bumps reduce speed to 2-5 MPH
- End caps protect the ends of the speed bump
- Weighing less than concrete, they are easily installed by one person
- UV-resistant rubber tightly conforms to surfaces and will not fade, warp, crack, chip or rot
- Cat's eye reflectors further enhance visibility to alert drivers well in advance
- The bumps have a channeled bottom to facilitate drainage as well as to cover cabling or piping
- Installation hardware included: choose concrete hardware for temporary placement or asphalt hardware for permanent placement
