Weight (lb)	24

DESCRIPTION

The Oasis Elevated Crossweave Nesting Chaise Lounge utilizes virgin vinyl strap seating material secured to a commercial grade aluminum frame. The round aluminum extrusion that forms the frame of the Oasis Crossweave Nesting Chaise Lounge is finished in any of Texacraft's many powder coated colors. The elevated height makes this chaise ADA compliant. It is also an easier height for anyone wanting an easy on/off chaise lounge. Easy to maintain, simply rinse off or scrub with a mild soap solution and the furniture will remain new looking for years of practical use. The chaise lounge stacks for easy

storage when not in use.
