DESCRIPTION

The M4501CW Scandia Crossweave Dining Chair is made from a flat oval aluminum extrusion and can be finished in any of Texacraft's many powder coat finishes. The nesting design of the chair allows for minimal storage when not in use. The vinyl crossweave seat bucket is comfortable from the forgiving nature of the virgin vinyl strapping available in any one of Texacraft's 31 vinyl colors. As with all of the Scandia Crossweave strap furniture, the vinyl is 'double wrapped' around the seat frame.
