Depth (in)	26.75
Weight (lb)	14

### DESCRIPTION

The M4506CW Scandia Crossweave Sand Chair is made from a flat oval aluminum extrusion and can be finished in any of Texacraft's many powder coat finishes. The nesting design of the chair allows for minimal storage when not in use. The vinyl crossweave seat bucket is comfortable from the forgiving nature of the virgin vinyl strapping available in an one of Texacraft's 31 vinyl colors. Although designed to be used in the sand, due to the sled base leg design, this chair is a perfect poolside choice as well. As with all of the Scandia Crossweave

strap furniture, the vinyl is 'double wrapped' around the seat frame.
