Depth (in)	84.5
Weight (lb)	47

DESCRIPTION

The M4509CW Scandia Crossweave Chaise Lounge is made from a flat oval aluminum extrusion and can be finished in any of Texacraft's many powder coat finishes. The stacking design of the chaise allows for minimal storage when not in use. The vinyl crossweave seat bucket is comfortable from the forgiving nature of the virgin vinyl strapping available in an one of Texacraft's 31 vinyl colors. The chaise has heavy duty nylon skid plates to eliminate ground to aluminum contact to prolong durability of the chaise lounge. As with all of the Scandia Crossweave strap furniture, the vinyl is 'double wrapped' around the seat frame.
