DESCRIPTION

The Seascape M82007 Spa Chair has an aluminum frame with HDPE (high-density polyethylene) lumber for the seat. HDPE material is made from post-consumer bottle waste such as milk jugs and detergent bottles, making this an environmentally friendly product. The Seascape M82007 is a transitional design and is available in any Texacraft powder coat finish to coordinate with any one of 4 lumber colors to select from. A great lounge chair for poolside activity.
