### DESCRIPTION

The M35033 Southern Cay Modular Circular Corner Unit is another component of the modular seating collection. This furniture is made from a heavy-duty aluminum extrusion and can be finished in any of Texacraft's powder coat finishes. The M35033 can be used as a transition piece between other units or placed together to form a half circle loveseat. The low profile, contemporary styling is very comfortable in a casual, lounge setting. Select from among Texacraft's broad range of cushion fabrics to create a striking look.
