DESCRIPTION

The M35034 Southern Cay Modular Quarter Circle (inside circle) Chair Unit is another component of the modular seating collection. This furniture is made from a heavy-duty aluminum extrusion and can be finished in any of Texacraft's powder coat finishes. The M35034 can be used as a stand alone piece or joined with other component pieces to form a shape of your particular space. Two of these together form a half circle. Three of these joined together form a 3/4 circle with easy entry for a terrific conversation area- a perfect arrangement for a firepit. The low profile, contemporary styling is very comfortable in a casual, lounge setting. Select from among Texacraft's broad range of cushion fabrics to create a striking

look.
