Seat Height (in)	23.5
Weight (lb)	27

DESCRIPTION

The M76014B Southern Cay Woven Balcony Chair is formed from a heavy-walled aluminum extrusion and showcases a hand-woven bucket made from a weather proof synthetic material in a mottled taupe/beige coloration. The frame of the M76001 can be finished in any Texacraft powder coatings. The ergonomically contoured bucket is extremely comfortable and the gently softness of the weave adds even more long-term

relaxation. Balcony height (or counter height) is the perfect height for easy on and off as its seat height is between regular dining and bar height.
