

**T2245R – Tuscany Recycled Plastic Bar Height Chair**

Bar height chair with recycled plastic planks and steel frame and legs

**Material**

The chair is composed of 0.75" x 3.5" recycled plastic seat and back planks with 14-gauge steel frame and legs. Planks are attached to the frame using stainless steel hardware. The chair is 42.83" tall and designed to support 200 lbs. per linear foot.

The chair frame and legs are made square tubular steel; legs feature a footrest for comfort and plastic foot glides to help protect your floors.

The planks are made of 95% recycled content by weight and are impervious to moisture and corrosion, do not require the application of sealants or preservatives, and will never need painting or staining throughout the product's life.

**Finish**

Fade-resistant, powder coated steel frame features a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

**Color**

See website or sales representative for color choices.

**Assembly**

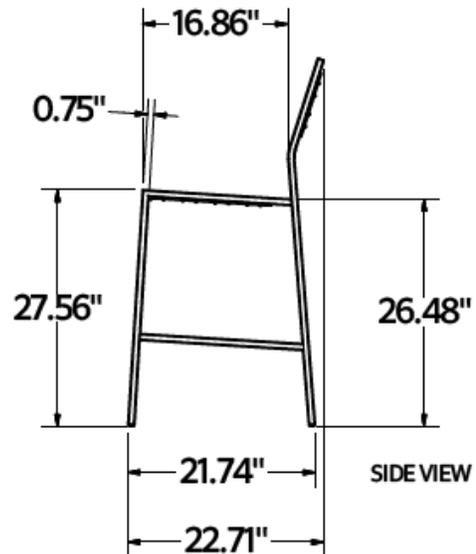

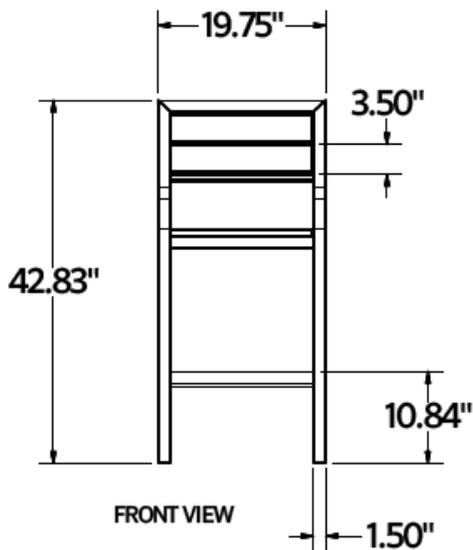

The chair ships fully assembled and ready for use.

**Maintenance**

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum base products.

**Warranty**

20-year limited structural warranty
