

**Material**

The 32-gallon receptacle is composed of .5" thick aggregate and epoxy bonded to a hardboard substrate and supported by a non-rusting aluminum frame. The frame and top feature wide rounded corners. The receptacle features a non-rusting curved aluminum top that provides a wide opening to the ashtray while keeping out the elements. The ashtray top lifts off for easy trash removal. The receptacle top also includes a 14" web security strap.

The unit includes a bag-holding retainer band and start-up supply of 5 poly trash bags and a supply of Black Beauty sand substitute.

The receptacle is designed to be portable, allowing for flexibility in placement.

**Finish**

The aggregate is cast in a durable epoxy resin that remains clear and bright throughout its life.

**Color**

See website or sales representative for color choices.

**Assembly**

The receptacle arrives fully assembled for immediate use on site.

**Maintenance**

Maintenance-free. To clean, spray with a power washer.
